Absstem Shield:

Premium Service Across India

Absstem Technologies, a leading gas technology provider and industrial and medical gas generator manufacturer has come up with a new initiative called **Absstem Shield**, under which Annual Maintenance Contracts (AMC) and Comprehensive Maintenance Contracts (CMC) will be offered for oxygen generators. Our Service Plans keep your nitrogen and oxygen generators in excellent shape.

Key Features

- Our AMC/CMC solutions work with **ANY** brand **PSA/VPSA Oxygen & Nitrogen** Generators
- We offer **on-site checkups** for your machines to access and understand your machine's requirement
- **CMC solutions** that look after your machines for as long as **10 years and beyond**
- **24 x 7** access to spare parts
- Quickest TAT (Turnaround time) in the industry.
- Constant touch of our team with your operator on **monthly** basis, ensuring highest uptime in the industry.
- Genuine spares with 6-month warranty
- We provide constant **monitoring** along with **monthly status updates**

Absstem Shield

Our in-house technical shield engineers are in constant contact with the operators every month making sure that the purity levels and output efficiencies are consistent with the requirement you've asked for. Our AMC plans work with ANY brand and either PSA or VPSA oxygen generators and PSA nitrogen generators. We make sure that every service during the AMC period is free-of-charge. If there is a need for part replacement, the only cost you would incur would be that of the spares. AMCs are open 24*7 and assure a timely service maintenance schedule. Our plans include AMCs that include constant monitoring, monthly status updates, on-site visits and one of the quickest turn-around times in the country.

Absstem Shield Premium

Our Comprehensive contracts include anything and everything that your gas generators would require to make sure the output and purity levels are consistent. The CMC plans work with ANY brand and include monthly routine check-ups, on-site deployment of our technical shield engineers, and replacement of consumables at no additional cost. As mentioned before, our CMC plans are open 24x7.

Terms And Conditions

- ### Our Responsibility

  - Check installation and ambient conditions.
  - Maintenance by service engineer based on checklist
  - Documentation of the maintenance results
  - Scheduling the maintenance dates.

- ### Client Responsibility

  - Repair and Maintenance carried out under this contract do not release the user from the prescribed operator level preventive control routines described in the service manual.
  - It is the user's responsibility to make the PSA plant available for preventive maintenance to Absstem Service Engineer on his scheduled visit. Otherwise, such a visit will be charged.
  - The suggestions/recommendations given by our service engineers from time to time on the operation of the PSA Gas Plant shall be implemented by the user.
  - It is the user's responsibility to arrange for inspection/maintenance/repair/ spare part of main incoming power, oxygen or nitrogen pipeline leakages or any other equipment beyond PSA Gas Plant maintained by supplier.

- Conditions:

  - The Service contract does not apply to any damage caused due to mishandling, neglect, accident, improper application and any repair or maintenance done by an unauthorized person.
  - We are not liable for any damages arising from improper use of the equipment, or failure to follow adequate safety precautions.
  - Proper cleaning of the Air Compressor and PSA Gas Generator should be done as per the maintenance schedule provided to Client. If any damage or operation of equipment is affected due to not following the preventive maintenance schedule given to the Client.
  - Proper/continuous (without fluctuation) incoming power should be provided by the Client. Any equipment damaged due to power fluctuation is not covered under this contract.
  - Separate earthing for PSA Gas Plant and pipeline should be provided by the Hospital. If any equipment is damaged due to the non-availability of separate earthing would not be covered under CMC.
  - The Client should arrange for at least 48 hours of Gas backup after reporting the problem.
  - The service contract for PSA Gas Generators should not be broken under any condition. If the service contract is broken by the user, then the next contract would be made after inspection of the PSA Gas Generator (Chargeable). Any spares or maintenance required before the continuation of the maintenance contract should be done at extra costs if required and would be the sole decision of supplier. We are offering you service contract with an increment of 7% every year.
  - If any maintenance/repair of the PSA Gas Generator is done by an unauthorized person, Service Contract would be void with immediate effect. And another Contract needs to be done after inspection of the machine (chargeable) and it would be sole decision of supplier.
  - Any equipment not covered under contract but is a part of PSA Gas Generator, the supplier is not liable for any services however if required on sole discretion of supplier it can be done on chargeable basis.
  - 10 years warranty on sieves is only applicable if the equipment is covered under Absstem premium and Absstem Shield (recommended consumables are changed as per the schedule given by supplier).
  - Any damages incurred in major equipment due to shot circuit and malfunction are not covered such as motors, electricals and electronics etc.

A world-standard plan, with pan-India service.

Thank You
